CRL Presents

The Complete
Adventure Creation System

TEXT, GRAPHICS, SOUND.
EVERYTHING YOU NEED
TO CREATE YOUR OWN
AMAZING ADVENTURES.

AMSTRAD CPC 464/664

Genesis

The Complete
Adventure Creation System

Genesis heralds in a new era of adventure designing on the Amstrad. This incredibly user-friendly operating system has been designed to allow even the most inexperienced computer user to create stunning graphic adventures with amazing 3 channel music and sound effects, which will run independently of Genesis when completed. Everything you need to create your adventures are included in this package.

TEXTURE: *the text editor. The main programme in Genesis, enabling you to define messages, rooms, responses etc incorporating a unique walk through and test facility.*

DEPICTER: *creates pictures and sounds for actual use in your adventure. With full graphic design program and sound editing facilities.*

CLONER: *data files included from texture and depicter, are loaded into cloner to produce your finished game on to a blank cassette.*

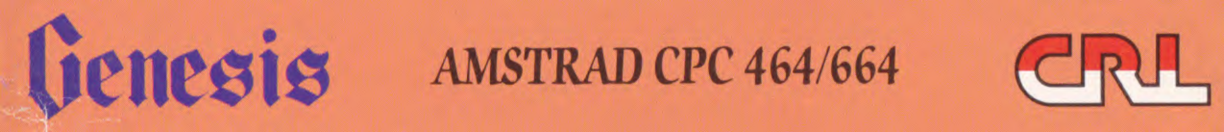

We have also included a free adventure game 'In like Minsk' to get you started.

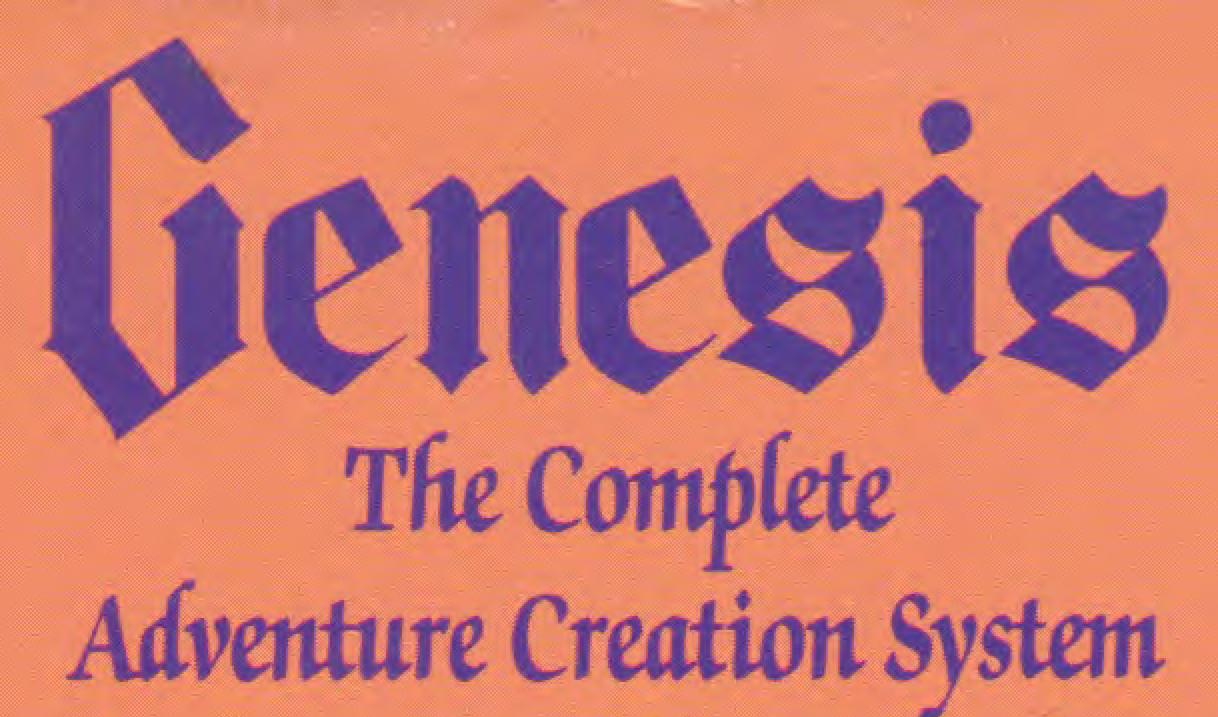

Genesis. Its only limit is your imagination.
